Re: Request for Proposals, Non-Grid Tied Electric Vehicle Charging and Electric Vehicle Carshare Services, Bid BD-26-1217-MAP02-MAP02-121989

Suryatech EV Power LLC submits the enclosed proposal in response to the above request. Suryatech is an awarded vendor on Statewide Contract VEH122 under Master Blanket Purchase Order PO-25-1080-OSD03-OSD03-37680 in categories 1 (electric vehicle supply equipment, hardware, software and ancillary services) and 4 (operation and maintenance), and is certified by the Supplier Diversity Office as a Minority Business Enterprise.

Our proposal offers non-grid-tied charging built around our hybrid solar and battery charging station, which delivers DC fast charging at sites without a heavy grid connection. The equipment was funded for testing by the Massachusetts Clean Energy Center under an InnovateMass award. Carshare services in this proposal are provided by SAMPLE [carshare operator], our joint venture partner for this program, as described in Tab 3.

We confirm that the enclosed proposal follows the tab structure in Section 7.2 of the RFP, that the forms in Section 11 are enclosed in the order listed, and that the price proposal in Tab 7 uses the Appendix D template with one price for each candidate site and none above \$110,000. Prompt payment discount terms are 2% 10 days, 1% 15 days, 1% 20 days, as published on our contract record.

The primary contact for this proposal is Mayur Kamalakar, Founder, at mayur.kamalakar@suryatechpower.com and 339-244-9464.

Respectfully,

Mayur Kamalakar, Founder, Suryatech EV Power LLC
